

JOB SHADOWING

**Architectural
Drafting
& Estimating**

**Construction
Management**

**Building
Construction**

**Land
Surveying
& Civil
Engineering**

The **North Dakota State College of Science** offers high school students who are interested in any of our program areas the opportunity to participate in a **Job Shadow**.

If interested in a career in construction, we strongly encourage partaking in a Job Shadow. This is a great opportunity to spend time with construction professionals to understand what they do on a daily basis and what a typical work environment may look like.

Our goal is to help students:

- Gain a better understanding of an exciting career in construction
- Determine if the career is compatible with your interests and abilities
- Learn what type of education is needed to be a leader in this career
- Make contacts with future employers in your area
