

RN Program Outcomes

1. The programs NCLEX-RN licensure exam pass rate will be at 80% or higher for all first time test takers during the same 12-month period (1July-30 June).
2. Eighty percent of RN students will complete the program within three semesters of beginning the program.
3. Eighty percent of RN students will be employed as an RN within 6 months of graduation.
4. Students will meet or exceed national average on ATI-RN Comprehensive Predictor exam.

RN Student Learning Outcomes

1. Patient Centered Care:

Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient's preferences, values and needs.

2. Teamwork and Collaboration:

Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.

3. Evidence-Based Practice:

Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.

4. Quality Improvement:

Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems.

5. Safety:

Minimize risk of harm to patients and providers through both system effectiveness and individual performance.

6. Informatics:

Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making.
