RN Program Outcomes

1. The programs NCLEX-RN licensure exam pass rate will be at 80% or higher for all first time test takers during the same 12-month period (1 July-30 June).
2. Eighty percent of RN students will complete the program within three semesters of beginning the program.
3. Eighty percent of RN students will be employed as an RN within 6 months of graduation.
4. Students will meet or exceed national average on ATI-RN Comprehensive Predictor exam.

RN Student Learning Outcomes

1. **Patient Centered Care:**
   Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient’s preferences, values and needs.

2. **Teamwork and Collaboration:**
   Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.

3. **Evidence-Based Practice:**
   Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.

4. **Quality Improvement:**
   Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems.

5. **Safety:**
   Minimize risk of harm to patients and providers through both system effectiveness and individual performance.

6. **Informatics:**
   Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making.
