

Check List

The initial impression that you create from your appearance in an interview can have considerable impact on the interviewer's overall evaluation of your suitability for a position. The key here is to dress conservatively. Statistics confirm that applicants who look professional are hired faster, get better jobs and may even start with better salaries.

NOTE: Posture is also a part of your appearance. Stand tall, sit relaxed, be attentive and speak up. While some of these tips may seem to be common sense, candidates tend to forget the dress protocol of a professional interview.
