Connecting a TV, Game Console or devices other than cellphone or computer to the Wifi Network

1. From a computer, go to the NDSCS My Devices Portal website: https://mydevices.ndscs.ndus.edu

2. On that screen, enter in your NDUS/Campus Connection username and password.

3. Once logged in, you will see the Manage Devices screen. This page will allow you to add or delete devices.
4. To add your device, find the wireless MAC address in this format: a1:b2:c3:d4:e5:f6
   The MAC address is typically found in the network settings of the device.
   You may need to Google how to find this for your device.

5. Click Add on the Manage Devices page and enter the following information:
   - **Device Name**: create a name that includes your name and the type of device.
   - **Device ID**: enter the wireless MAC address of your device from Step 4.
   - **Description**: use a description to help you identify the device later.

6. Click **Submit**.

7. After the information is successfully submitted, connect your device to the NDSCS IoT wifi network on campus.
