North Dakota State College of Science
COURSE PLACEMENT POLICY 2023
Effective for students entering Summer Semester 2023

NDSCS follows the below policy for course placement into mathematics and/or English courses.

**North Dakota State Board of Higher Education Policy 413:**
1. NDUS institutions shall require students who intend to enroll in a degree-credit English or mathematics course to submit proof of course placement. The Chancellor may enact procedure to carry out this requirement.
   - Readiness indicators referenced in NDUS Procedure 413.1
2. NDUS institutions may require additional course placement testing for enrollment in advanced degree-credit courses. Effective August 1, 2023. Formerly Policy 402.1.2.

**NDSCS Course Placement Policy**
The Entry Level Assessment Committee is responsible for establishing and revising this policy. Any exemptions or overrides to this policy will only be authorized in extenuating circumstances. These situations will be reviewed and managed by academic counselors and student success staff, through discussion and consultation with faculty and academic personnel as appropriate. In the event of an override or exemption documentation will be completed and communicated timely with appropriate offices and/or individuals.

Students will not be required to take Course Placement tests if:
- Student has ACT or SAT official scores dated within the last five years.
- Student has ACCUPLACER\(^1\) official scores dated within the last three years.
- Student has transferred College Composition and/or Mathematics courses that fulfill degree requirements.
- Student seeks to enroll only in courses on an audit basis.
- Student has completed Pearson My Foundations Lab English and/or Math with scores of 70% or higher.

Students are encouraged to take the ACCUPLACER test in areas that college-level placement and/or Program Admission Requirements are not met.

Students wishing to appeal their placement into college-level English and/or math can complete the Course Placement Appeal Form. For details about the appeal process, go to English and Math Placement.

Updated to match NDUS policy for SAT Evidenced-Based Reading and Writing score 3/15/19

Course Placement Policy 2023 | Page 1
Course Placement Test Overview

**ACT/SAT**
NDSCS will accept the highest ACT sub-score for mathematics, English and/or English plus Reading* of any ACT test taken within five years of registration. The ACT is designed to assess student’s general educational development and the ability to complete college level course work. Registration information and materials can be obtained from www.actstudent.org.

*Effective August 1, 2023

**ACCUPLACER Placement Exam**
North Dakota State College of Science requires all students to submit valid placement scores, unless exemptions apply. Students may be required to complete the ACCUPLACER Exam for course placement purposes.

ACCUPLACER is a computerized adaptive placement testing system that measures skills in mathematics and writing. The test is not timed.

The ACCUPLACER placement test is free of charge to all NDSCS students. Testers should allow at least one week to review the subject matter before retesting. Students are eligible to take the ACCUPLACER test twice within a three (3) month period.

- Students attempting to challenge their placement (in the first course of the ASC developmental series) **must retest before** the first ASC class meeting.
- Once a student has started classes in an ASC course/series, they must complete the series and **may not** attempt to challenge placement to try to test out of a class.

**Pearson My Foundations Lab (Pearson CLEM/CREAM) [North Dakota High School Students]**
As components within the Choice Ready indicators, the College Ready English and Math (CREAM) and College Lab for English and Math (CLEM) programs are designed to provide high school seniors with the opportunity to take necessary developmental coursework required upon entering higher education.

Pearson My Foundations Lab is offered through North Dakota High Schools and NDSCS will accept the scores for placement into college level English and Math courses. If students are registering for classes before completing the My Foundations Lab coursework ACT/SAT/ACCUPLACER scores will be utilized for course placement. NDSCS uses the highest placement scores, as such schedules may need to be adjusted once completed My Foundations Lab scores are received.
English/Writing and Reading Placement

The eligibility for English 110 – College Composition I is determined by nationally recognized examinations, such as ACT, in English/Writing. If testing indicates the need for developmental work, students **must** successfully complete the developmental sequence before enrolling in English 110. Co-requisite to English 110 may apply.

EBRW = Evidence-Based Reading and Writing
Mathematics Placement Scores

The eligibility to enroll in mathematics courses is determined by nationally recognized examinations, such as ACT, in mathematics. The appropriate mathematics class is dependent upon the program of study. If testing indicates the need for developmental work, the student must successfully complete the developmental sequence before enrolling in the required mathematics course(s).

Accuplacer QAS = Quantitative Reasoning, Algebra, and Statistics (NEW Elementary Algebra)
Accuplacer AAF = Advanced Algebra and Functions (NEW College-Level Math)

If you are planning a four-year degree, consider one of the following transfer math courses:
- MATH 103 College Algebra
- MATH 105 Trigonometry
- MATH 107 Pre-Calculus
- MATH 110 Math in Society
- MATH 210 Elementary Statistics

Any appropriate NDSCS Transfer Level Math course. Students are encouraged to discuss placement with an academic advisor before registering for classes.

### NO SPECIFIC MATH REQUIREMENT:

- Agriculture: Animal Science (AAS)
- Agriculture: Farm Management (AAS)
- Agriculture: Ranch Management (AAS)
- Agriculture: Meat Processing (Certificate)
- Agriculture: Precision Agriculture Technician (AAS)
- Agriculture: Precision Agronomy (AAS)
- Auto and Diesel Master Technician
- Business Management: Entrepreneurship (Certificate)
- Business Management: Finance (Certificate)
- Business Management: Management/Supervision (Certificate)
- Business Management/Culinary Arts: Restaurant Management (3rd Year option) (AAS)
- EMS: Emergency Medical Technician (EMT) (Certificate)
- HI: Health Information Technician (AAS)
- HI: Medical Coding (Certificate)
- ICT: Information Technology Support
- ICT: IT Forensics and CyberSecurity (Certificate)
- ICT: Social Media Specialist (Certificate)
- ICT: Software Coding (Certificate)
- Occupational Therapy Assistant (AAS)
- Plumbing (Certificate)
- Technical Studies (Including: Journeyworker Track, Meat Processing)
- Unmanned Aircraft Systems (UAS)
