Delivery Methods
Face-to-Face: Wahpeton

Students who enroll in the Animal Science option in the Agriculture Department can choose between careers in diversified crop and livestock production, sales of livestock feed and supplies, and employment in a livestock operation. Students will find many challenging courses. These may include: livestock production, feeds and feeding, livestock health management, range management, and advanced production and nutrition courses.

Students will have the opportunity to apply concepts learned through hands-on activities at the NDSCS Kosel Family Agriculture Land Lab and other classroom and laboratory activities. The Land Lab is a 90-acre demonstration farm operated by the Agriculture Department, students and industry partners.

Students enrolled in this option will complete a 400-hour paid internship at a career related training facility during the summer between their first and second year of instruction.

Our philosophy statement is: “The Agriculture Department provides education for the present and future by incorporating leadership and career development, best management practices in crop and livestock production, mechanics, technology, natural resources, problem solving, internships, and communication through a diverse program.”

Admission Requirements*
The applicants must be high school graduates or equivalent. Helpful courses to prepare for this program are mathematics, physical science, biology, agricultural education, computer science, and English. Courses that develop communication skills are important.

Required minimum placement scores:

<table>

</tbody>
</table>

Or transfer equivalencies will apply as appropriate

Applicants not meeting the above requirements are encouraged to visit with the academic counselor at 701-671-2263 or the Agriculture department chair at 701-671-2249 for strategies to meet the admission requirements.

*Program Admission Requirements are subject to revision. Please check the department or program website under Program Admission Requirements for current information.

Award
Upon successful completion of the required courses, students will be awarded an Associate in Applied Science degree in Agriculture with an emphasis in Animal Science.

Course Code | Course Title                                      | Credits
-------------|--------------------------------------------------|---------
AGEC 141     | Introduction to Agribusiness Management (1 Credit/Sem.) | 2
AGEC 242     | Introduction to Agricultural Management          | 4
AGEC 244     | Introduction to Agricultural Marketing           | 3
ANSC 114     | Introduction to Animal Sciences                  | 3
ANSC 116     | Animal Reproduction                              | 3
ANSC 118     | Livestock Health Management                      | 3
ANSC 123     | Feeds and Feeding                                | 3
ANSC 220     | Livestock Production                             | 3
ANSC 224     | Applied Livestock Feeding                        | 3
ANSC 231     | Livestock Evaluation                             | 2
ANSC 252     | Large Ruminant Production                        | 3
ANSC 236     | Introduction to Range Management                 | 2
AGRI 191     | First Year Seminar                               | 1
AGRI 275     | Introduction to Precision Agriculture            | 3
AGRI 291     | Second Year Seminar                              | 1
