This is a third-year option developed for students who complete Automotive Technology or Diesel Technology and want to continue their education and increase their technical and mechanical skills. The dual major will strengthen the marketability of students for employment in automotive, diesel, and related fields of business and industry. This curriculum is for students who complete Automotive Technology and then go to Diesel Technology. Admission into the Automotive and Diesel Master Technician program is dependent on the availability of open seats in each program area. Please check with the Transportation Department Chair for current information.

The Automotive and Diesel Master Technician program prepares students for employment in the vast and broad automotive and diesel industry. Students are provided with experiences emphasizing diagnostic and repair skills with extensive shop time. Students test, diagnose, adjust, and repair all types of drivetrains, engines, hydraulic systems, steering and suspension systems. Students’ abilities in communications, human relations, and other aspects of general education will be enhanced.

This practical education will allow graduates to work in dealerships, independent shops, or national service centers. Graduates work as automotive technicians, truck technicians, tractor technicians, heavy equipment technicians or in many related fields. Many graduates have advanced from technicians to team leaders, service writers, service managers, owners, and vocational teachers.

The Automotive Technology program is master certified by the National Institute for Automotive Service Excellence (ASE). The Diesel Technology program is accredited by the AED Foundation.

NOTE: This program requires an EliteBook 850 Laptop or equivalent. Please refer to the NDSCS website for specifications. The cost will be approximately $1065.00 if purchased through NDSCS. For further information, contact Terry Marohl, department chair, at 701-671-2308.

Admission Requirements*
The applicants must be high school graduates or equivalent. Students considered for acceptance must complete all admission requirements. Students who complete Automotive Technology with a Diploma will need to complete additional courses to meet the AAS requirements for Automotive and Diesel Master Technician.

Required minimum placement scores:

<table>
<thead>
<tr>
<th>ACT</th>
<th>ACCUPLACER</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reading – 15</td>
<td>NEXT GENERATION</td>
</tr>
<tr>
<td>English – 15</td>
<td>Reading – 240</td>
</tr>
<tr>
<td></td>
<td>Writing – 237</td>
</tr>
</tbody>
</table>

Or transfer equivalencies will apply as appropriate

Applicants not meeting the above requirements are encouraged to visit with the Diesel Technology Department at 701-671-2330 or the academic counselor at 701-671-2257 for strategies to meet the admission requirements.

Please Note: Students are placed into English, math and reading courses based on ACT, ACCUPLACER or other nationally recognized tests. Please see www.NDSCS.edu/current-students/student-success/test-center for the NDSCS Course Placement Policy and testing information. Students may be on an extended plan of study pending their course placement.

Course Code | Course Title                                      | Credits |
------------|--------------------------------------------------|---------|
AUTO 103    | Power Train/Brakes                               | 3       |
AUTO 143    | Steering, Suspension, and Engine Repair          | 3       |
AUTO 165    | Automotive Electrical and Electronics            | 5       |
AUTO 168    | Hybrid and Electric Vehicle Systems              | 1       |
AUTO 188    | Driveability Procedures I                        | 5       |
AUTO 206    | Chassis Repair/Body Repair                       | 7       |
AUTO 216    | Engine Repair                                    | 7       |
AUTO 226    | Automotive Transmission/Transaxles               | 7       |
AUTO 286    | Driveability Procedures                          | 7       |
AUTO 297    | Cooperative Education (324 hours)               | 2       |
MFGT 110    | Industrial Shop Practices                        | 2       |
TECH 109    | Air Conditioning                                 | 2       |

Related/General Education Courses
ENGL 110    | College Composition I                           | 3       |
ENGL 105    | Technical Communications                        | 3       |
ENGL 120    | College Composition II                          | 2       |
ENGL 125    | Introduction to Professional Writing            | 2       |
COMM 110    | Fundamentals of Public Speaking                 | 2       |
Wellness Elective(s)                            | 2       |
MATH 120    | Basic Mathematics I                             | 2       |
MATH 123    | Basic Mathematics II                            | 2       |
MATH 125    | Basic Mathematics III                            | 2       |
Social and Behavioral Sciences, Humanities, History and/or Computer Electives | 4 |
FYE 101     | Science of Success                              | 1       |

Diesel Technology (Minor) Courses
DTEC 110    | Diesel Equipment Maintenance or                 | 3       |
DTEC 125    | Introduction to Heavy Duty Drive                | 3       |
DTEC 135    | Medium/Heavy Duty Brake Systems                 | 2       |
DTEC 164    | Introduction to Mobile Hydraulics               | 4       |
DTEC 215    | Heavy Duty Diesel Engines                       | 7       |
DTEC 225    | Heavy Duty Drive Systems                        | 7       |
DTEC 255    | Heavy Duty Chassis Electrical Systems           | 7       |
DTEC 265    | Mobile Hydraulic Systems Diagnostics and Repair| 7       |

Total Required Credits
97

Throughout the course of the year, students will need to take DTEC 110 or DTEC 125 or DTEC 135, DTEC 164, DTEC 265 and two of the following 2nd year courses; DTEC 215, DTEC 225 or DTEC 255.

Students in this emphasis will complete the Automotive curriculum prior to taking Diesel Technology.

*Program Admission Requirements are subject to revision. Please check the department or program website under Program Admission Requirements for current information.

Award
Upon successful completion of the required courses, students will be awarded an Associate in Applied Science degree in Automotive and Diesel Master Technician.

Revised May 2022
