

The future you want is within reach.

At PCL, we build the places where life happens and find camaraderie in the process. We're a community of builders committed to building better communities. That's why we're always looking ahead, and not just to the next project or what's next in our industry.

We're also looking at what's next for you and how we can help you build a career you're proud of. We are seeking a **Field Engineer** for our **Minneapolis District** to work at various construction sites located in Minnesota, North Dakota, and a possibility of working in other states. We are looking to have this position start **May of 2021**. The Minneapolis District main office is located in **Edina, MN**.

As a Field Engineer for our Minneapolis District you will contribute to our team by:

- Providing support to the PM, Superintendent, and other project staff
- Building relationships and communicate with owners, design partners, subcontractors, & workforce
- Reviewing shop drawing, submittals and schedules, and process RFIs
- Assisting with implementing and monitoring the quality control, safety and environment programs
- Assisting with project layout
- Assisting with all schedule preparations & updates, identify critical work items, and prepare long-lead items
- Assisting with monthly billings, cashflow projections, and process change orders
- Assisting with quantity reporting, project costing, and forecasting
- Managing document control including submittals schedules, contract documents, shop drawings, etc.
- Assisting with delivery, inventory, and warehousing of materials and equipment
- Resolving field problems and conflicts, liaise with subcontractors, suppliers, and workforce
- Maintaining as-built drawings & manuals
- Assisting with project closeout
- Attending and/or leading meetings
- Other duties as appropriately assigned

What you will bring to the role:

- A Construction Management, Construction Engineering, or other degrees related to the construction industry received **on or before May 2021**. Or possess a Construction Management certification with two or more years of related experience.
- Proficiency with Microsoft Office Suite and current industry related programs
- Willing and able to relocate to future project locations when necessary (including locations outside of Minnesota)

CONSTRUCTION
