

STUDENT SPONSORSHIP

SPONSORSHIPS are designed to assist students with the **AFFORDABILITY** of a college education and assist businesses with **RECRUITING** and **RETAINING** qualified employees for industries that are experiencing a workforce shortage.

WHAT IS STUDENT SPONSORSHIP?

A student is considered "sponsored" when a company recruits or is matched with a prospective or current NDSCS student who shows potential and interest as a future employee of the company.

Employers typically form a contractual agreement with a student outlining the expectations and incentives for both parties. The student enrolls in a NDSCS academic program that will provide the education and training appropriate for the skills needed by the company in exchange for on-the-job training or employment later.

While there is no single model for sponsoring students, there are many common characteristics that have proven to be highly effective, such as:

- Tuition reimbursement agreements/contracts;
- Signing bonuses or incentive paybacks;
- Tool purchasing agreements;
- Guaranteed Cooperative Education experiences and/or internships;
- Uniform/branded apparel.
